Mike,

As a follow-up to our verbal discussions, I am putting into the record the following discussion

On December 2, 2008, Ohio EPA On-Scene Coordination Mike Gerber requested U.S. EPA assistance in conducting an emergency response at the SIR Site. A follow-up request by Kevin Clouse, Chief of Ohio EPA's Division of Emergency & Remedial Response, was made through U.S. EPA Section Chief Mark Durno.

Look correct?,
